Step 3: Filtering options

a) **Types** - There are five types available in the filtering options. They are explained as below

i) **Success** - This type will list all the successful activities of **Endpoint Manager** and it is notified by a green tick mark.

ii) **Warning** - If any warning event occurs in **Endpoint Manager**, in notification bar it is notified by a yellow color mark.

iii) **Error** - If an error is received, it is notified by a red alert mark.

iv) **Blocker** - When a blocker is found out by the **Endpoint Manager**, it is notified by the yellow color in the notifications.

v) **Support** - If any support is provided from **Endpoint Manager**, it is notified by the yellow color mark.

b) Message

Type the Message to filter the appropriate notifications as shown below.

c) Received

Type the **Start date** and **End date** to filter notifications from a particular period of their Received time.

For Example, A sample filter is given below.

The screenshot displays the TARIAN MSP Endpoint Manager interface. The left sidebar contains navigation options: DASHBOARD, DEVICES, USERS, CONFIGURATION TEMPLATES, APPLICATION STORE, APPLICATIONS, SECURITY SUB-SYSTEMS, and SETTINGS. The main content area shows a list of notifications under the 'Notifications' tab. The filter panel on the right is active, showing the following settings: Type: Success; Warning: ; Error: ; Blocker: ; Support: ; Message: ; Received: to . The notification list shows 15 items, all of which are filtered to show 'Success' type notifications with the message 'report'. One notification is highlighted in red, indicating an error: 'Connection to Comodo Account Management server for checking the licenses can not be established! IT and Security Manager Portal will stop working in 3 days.'

After applying a filter, it will list the filtered notifications.
